

Supermicro 1U Server

- Intel[®] Xeon[®] E3-1230 v3 processor
- 16GB ECC 1600MHz memory
- 2x Seagate 1TB SATA hard drives
- Choice of operating systems

The RTS1U1P-002 Ready to Ship [RTS] 1U rackmount server is the perfect solution for businesses that need a low cost, high performance server for rapid deployment or a platform for pre-production testing. Preconfigured with the Intel[®] Xeon[®] E3-1230 v3 processor and featuring ECC memory, enterprise-class SATA hard drives, and built-in management control with dedicated NIC, the RTS 1U rackmount server reduces operating/IT costs, increases efficiency and lowers energy costs, providing your customer's business with the reliability, savings and performance they expect.

Features

Intel[®] Xeon[®] Processors

The Intel Xeon E3-1230 v3 processor features Hyper-Threading technology and delivers the scalable performance and reliability needed for a server environment.

ECC Memory

By correcting 99.9% of memory errors that may occur, ECC memory ensures data safety and keeps systems running.

SATA Hard Drive

Designed to manage server storage efficiently in 24x7 environments, the SATA hard drive provides added storage capabilities when your customers need it the most.

Built-in Management

From troubleshooting to managing or monitoring a server network, built-in management provides secure access and control of servers, decreasing the number of IT resources needed to correct a problem.

SPECIFICATIONS

Processor	Intel Xeon E3-1230 v3 processor
Memory	16GB ECC 1600MHz
Storage	2x Seagate 1TB 7200RPM enterprise SATA hard drives
Management Control	Dedicated NIC
Chassis	1U 4x drive bay chassis
Power Supply	400W
Operating System	Choice of Microsoft Operating Systems
