

# Servers Direct 7038A-I Mid-Tower Workstation

- Intel® Xeon® processor • Windows 8.1 Pro / Windows 7 Professional
- Up to 1TB DDR4 memory • SSD, SATA and SATA Hybrid storage options

The Servers Direct 7038A-I workstation is powered by dual Intel Xeon E5-2600 v3 processors and features the latest processor and chipset technology. This versatile, dual processor workstation features DDR4 memory, enterprise-class HDD storage options and discrete RAID controller options and is geared for CAD, graphic design and digital publishing applications in education, video editing and design environments.

## Features

### Intel Xeon Processor

The latest Intel Xeon E5-2600 v3 processor family delivers a significant increase in workload performance, scalability and reliability needed for an ever-changing workstation environment.

### Windows 8.1 Pro / Windows 7 Professional

The 7038A-I can be ordered with Windows 8.1 Pro or Windows 7 Professional, making it easy to integrate into an existing network infrastructure.

### DDR4 2133MHz ECC Memory

By correcting 99.9% of memory errors that may occur, ECC memory ensures data safety and keeps systems running. Additionally, DDR4 memory features improved multitasking capabilities and up to 50% increase in both bandwidth and power efficiency.

### SSD, SATA and SATA Hybrid Storage

Designed to manage workstation storage efficiently in 24x7 environments, the enterprise-class HDDs provide the flexibility, performance and reliability when you need it the most.

## SPECIFICATION HIGHLIGHTS

### Processor

Dual Intel® Xeon® E5-2600 v3

### Form Factor

Tower case

### Motherboard

Supermicro X10DAi

### Storage

4 x 3.5" internal SATA  
HDD bays

### Memory

Up to 1TB DDR4 ECC

### Connectivity

Dual Intel® i210 controllers

### Power Supply

900W high efficiency power supply
